

Opulent Black and Gold Christmas Baubles Card

Instructions:

1 Begin by cutting a piece of milk coloured card that is 5" x 6 3/4" in size. Dust your entire card with an anti-static pad. Using a Jet Black Archival Ink pad, stamp your sentiment in the lower right corner.

2 Using all five of the small Christmas Baubles, stamp each one at a varying height with a Clear Perfect Medium pad. Emboss with Cosmic Shimmer Bright Gold embossing powder.

3 Using a fine tip black marker, draw a line upward from each of your ornaments.

4 Using the Holiday Magic Spellbinders M-Bossability folder, emboss your stamped card. Cut a slightly larger black mat for it.

5 Using the swirl from the Heartfelt Dutch Iris die set, cut four out of soft gold card and four out of black card. Arrange the swirls coming from the upper left corner of your card. Glue into place so they are slightly offset from each other.

6 Using the Layered Poinsettia die, cut the pieces to make two flowers from black card, one with the three smallest dies and one with the two smallest dies. Bend each of the petals in the centre for dimension and then offset the layers of each flower. Glue a Self Adhesive pearl in the centre of each flower. Attach both flowers to the upper corner of your card.

7 Cut a larger piece of Milk coloured card and pierce the edges with a piercing ruler and pokey tool. Cut a final mat of Milk cardstock to complete your project.

MATERIALS REQUIRED: (...continued) Paper piercing ruler and Piercing tool, Black Archival Ink pad. Anti-static pad, Perfect Medium Clear Embossing Pad, Fine Tip Black Marker, Gold Satin card, Cosmic Shimmer Dries Clear Glue, Grand Calibur.
